

Susan Yotive

Sunday Afternoon Specialty Judge

We all start our love affair with Great Danes somewhere. Mine happened 4 days after I was married — I adopted a rescue Merle, who forever transformed my life.

Using the kennel name Krisda, in a limited breeding program and the help of wonderful friends, I have been blessed to have had Champions in 3 colors. Starting in the early 70's, I was influenced by many knowledgeable breeders who fixed important goals in my mind.

I have a Bachelor of Science degree in biology from Ohio State University and have worked in the Veterinary field for over 40 years. I have two grown sons and one amazing grandson.

Approved to judge in 1998, it has been a thrill to watch our breed advance. I was honored to judge at the National twice and have judged all over the US and Canada.

Thank you for the honor of judging your Specialty. Wishing everyone the best of luck and have fun — I know I will.
